Education

Vellore Institute of Technology **2023 – Present**
B.Tech in Computer Science Engineering (AI and ML) *Madhya Pradesh, Bhopal*

Narayana Educational Institutions **2023**
Class XII (State) *Hyderabad*

Dr. KKR's Gowtham **2021**
Class X (CBSE) *Vizagapatam*

Technical Skills

Languages: Python, C++, JavaScript, HTML, CSS.
Frameworks/Tools: TensorFlow, PyTorch, Tableau, Power BI, AWS, Vercel, Kaggle, LeetCode, Three.js, React.js.
Databases: MongoDB, MySQL.
Specialized: Web Development, Machine Learning, YOLOv3, Operating Systems, Discrete Mathematics & Graph Theory, Reinforcement Learning, Generative Adversarial Networks (GANs).

Experience

Skill Nexis **July 2026 – Present**
Full Stack Developer Intern (MERN Stack) (Remote) *Kolkata, India*

- Executed assigned technical projects focused on Full Stack Developer (MERN Stack) technologies to build practical knowledge.
- Delivered all hands-on web development tasks effectively and met project requirements within specified deadlines.

Beeskilled **July 2026 – Present**
Full Stack Web Development (MERN) Intern (Remote) *Chhattisgarh, India*

- Gained hands-on experience in Full Stack Web Development (MERN) by actively working on targeted technical projects.
- Successfully enhanced practical knowledge by completing assigned web development tasks within stringent deadlines.

BHARAT MAHOTSAV FESTIVAL **May 2026 – July 2026**
Full Stack Developer Intern (On-site) *New Delhi, India*

- Managed comprehensive website operations and integrated artificial intelligence features while ensuring optimal load balancing.
- Executed full-stack software development tasks encompassing thorough testing, debugging, and successful deployment.

Technical Projects

Building AI Study App | *Flutter, Node.js, MongoDB, FastAPI, NLP, React Native* **Present**

- Built a mobile app that converts lecture notes and PDFs into summaries, flashcards, and quizzes using pretrained NLP models.
- Added spaced-repetition scheduling (SM-2) and a progress dashboard to help students revise weak topics.

BlogBoard – AI Blog | Live Demo | *Python, LangGraph, LangChain, Cloudflare R2,JS, HTML/CSS* **March 2026**

- Built an AI-powered article generation platform using LangGraph, Groq, and specialized agents for tutorial writing, AI news research, and content validation.
- Implemented a review-and-revision workflow that routes drafts through validation, incorporates feedback, and publishes approved articles and metadata to Cloudflare R2.
- Developed a static blog frontend for browsing articles by category and deployed it on Vercel, with article content loaded from Cloudflare R2.

BugRush | Live Demo |*React, Node.js, Socket.IO, Redis, MongoDB, Judge0* **January 2026**

- Built a real-time 1v1 game where two developers race to fix the same buggy code, with Elo-based matchmaking and a live leaderboard.
- Ran user code in an isolated Judge0 sandbox with CPU, memory, and time limits to keep execution secure.

Certifications / Leadership

Data Science Club **Jan 2024 – Jan 2026**
Event Management Team Lead *VIT Bhopal University*

- Led a team of 18 members and successfully organized a total of 5 university events.
- Mentored junior members on core data science concepts, including Python and ML fundamentals, to promote a competitive and innovative campus environment.

Certificates **Jan 2024 – Present**

- Google IT Support Professional Certificate.
- AWS Skill Builder: AWS Technical Essentials.
- Coursera: Applied Machine Learning In Python.
- SkillUP: Introduction to Generative AI Studio.
- NPTEL Online Certification: Cloud Computing, IOT.
- VITyarthi: Python Essentials, Fundamentals of AI and ML, Programming In Java, Computer Vision.
